

# KOMODO EXCLUSIVE

KOMODO - KOMODO (6 NIGHTS)  
19-20 dives

## DAY 1 LABUAN BAJO, FLORES

A domestic flight from the island of Bali or Jakarta brings you to the harbour town of Labuan Bajo on the island of Flores. You are greeted at the airport by our staff and transferred to your hotel (on day before departure) or to the harbour where Adelaar is anchored (on the day of departure). As soon as everyone is aboard, we depart the harbour, with destination Sabolon island, where we will do 2 check dives. We anchor in a quiet bay for the night. (2 dives)

## DAY 2 NORTH KOMODO NATIONAL PARK

We spend the day diving around the northern boundary of the Park, off the uninhabited islands of Gili Lawa Laut and Gili Lawa Darat. At sunset we move in closer to Komodo bay for our night dive. (4 dives)

## DAY 3 NORTH & CENTRAL KOMODO NATIONAL PARK

An early morning hike is planned on Komodo for a chance to see the elusive Komodo dragon. Dives will be along the coast of Komodo as we head down to the southern end of the Island. A night dive is planned. (4 dives)

## DAY 4 SOUTH KOMODO ISLAND AND SOUTH RINCA

Dragons! We go ashore at 7:00 AM for a ranger guided hike into the interior of Komodo Island, to look for Komodo dragons. This UNESCO World Heritage site is the only natural habitat of these giant monitor lizards. The area was designated as one of the New 7 Wonders of Nature in 1991. Once safely back aboard, we move around the corner to our dive site just off Komodo's famous pink beach. During lunch we travel south for an afternoon dive along the coast of Komodo. At dusk, we dive Lehok Sera to search for the elusive mandarin fish. (4 dives)

## DAY 5 SOUTH KOMODO NATIONAL PARK

This morning we move to the extreme southern end of Komodo Island to our dive site, Manta Alley. This area typically has much cooler temperatures with nutrient rich waters, perfect for Mantas! After our two dives here, we enjoy lunch as the boat moves to southern Rinca to an area known as Nusa Kode. With the towering cliff walls surrounding all sides, the landscape in this remote destination is breath-taking. The resident dragon population likes to sun themselves on the beach from time to time.

Catch a glimpse of these prehistoric animals from the safety of Adelaar's main deck. After the sun sets, we prepare for a night dive, and then a late dinner. (3-4 dives)

## DAY 6 SEBAYUR & PUNGU

Our last diving days is spent around the island of Sebayur just north of the park. For the afternoon, keeping our no-fly time in mind, we plan a tour of the Atlas Pearl Farm on Pulau Pungu. With their environmentally friendly approach, they assure a healthy ecosystem, essential for the finest white and silver pearls to be grown. We anchor here for the night. (2 dives)

## DAY 7 LABUAN BAJO, FLORES

We arrive in Labuan Bajo in the morning at 7:00 AM. Disembark after breakfast for your onward journey.

*(Itinerary may vary depending on weather and sea conditions)*
